

# JOURNAL OF THE KOREAN GEO-ENVIRONMENTAL SOCIETY

Vol. 27, Issue 4, April 2026

## *Contents*

- **A Strategy for Seismic Intensity Information for Earthquake Response on the Korean Peninsula** **5**  
*Jeong-Hwan Lee · Doyoon Lim · Inchan Jeon · Jae-Kwang Ahn*
- **Analysis of the Relationship between Pore Flow-Path Characteristics and Hydraulic Conductivity in Random Packings of Spherical Particles** **13**  
*Jae-Eun Ryou · Seokgu Gang · Jongwon Jung*
- **Evaluation of Temporal Changes and Stability of Railway Roadbed Using Boring Test** **21**  
*Hyunsang You · Hyunwoo Jin · Yongcheol Shin · Hyuksang Jung*
- **Characteristics of Acceleration Response of Soil-Pile Group-Superstructure According to Seismic Incidence Direction** **29**  
*Jinhwi Hong · Kwangkuk Ahn*
- **Effect of Seismic Incident Direction on the Dynamic Behavior of Pile Groups Supporting Superstructures** **37**  
*Jinhwi Hong · Kwangkuk Ahn*
- **Analysis of the Liquefaction-Induced Settlement Characteristics According to the Embedded Depth Ratio of Sheet Piles Adjacent to Existing Structures** **45**  
*Joohyun Lee · Sanghoon Kim · Jongchan Yoon · Donghun Lee · Suwon Son · Jinman Kim*
- **Three-Dimensional Finite Element Analysis and Evaluation of a BNWF-Based Pseudo-Static Approach for the Seismic Response of Pile Foundations in Sand** **55**  
*Kichun Park · Duhee Park · Yonggook Lee*
- **Stability Analysis of Cut Slopes Considering Panel Retaining Wall Connection Types and Rainfall Conditions** **65**  
*Heesu Kim · Sangyun Kim · Jongdeuk Lim · Byounghun Kim · Hoki Ban*
