

JOURNAL OF THE KOREAN GEO-ENVIRONMENTAL SOCIETY

Vol. 27, Issue 10, October 2026

Contents

- Three-Dimensional Extension of Terzaghi's Arching Formula Using
the Average Inclination Angle of the Slip Surface and Evaluation
of its Effects under Various Excavation Conditions 5
Moorak Son
- A Study on the Characteristics of Settlement Behaviour under
Various Conditions in Soft Ground along the West Coast of Korea 13
Hoyeol Son · Jaehyun Kim · Youngjin Jeon · Gooseong Lee · Sungwan Park · Cheolju Lee
- A Study on Horizontal Earth Pressure in Narrow Backfills under
Different Wall Inclination Conditions 27
Byounghun Kim · Hoki Ban
- Compressive Strength Characteristics of CLSM Containing Wood Fly Ash 37
Sangyun Kim · Hoki Ban · Wonjun Park
- Evaluation of Horizontal-Drain Performance and Rainfall-Induced
Slope Stability Using Coupled Hydro-Mechanical Analysis 45
Hoki Ban · Heesu Kim · Jaemo Kang
- Dynamic Response Characteristics of Soil-Pile Group-Superstructure
According to Scour Depth 53
Joohee Won · Kwangkuk Ahn
- Diagnosis of Water Supply Safety in Agricultural Reservoirs Using
the Water Availability Sufficiency Index (WASI) 61
Taehwa Lee · Yongchul Shin · Younghun Jung · Beomgu Kim
